

29 April 1983

NOTE FOR: Director of Central Intelligence

FROM: Stanley Sporkin  
General Counsel

SUBJECT: Legislative Proposals Concerning  
Central America

In response to your request to me yesterday, I have had the following materials prepared for you:

<u>TAB</u>	<u>ITEM</u>
A	Revised version of draft compromise legislation I sent you on 27 April, eliminating Congressional veto over Secretary of State's negotiating agenda;
B	Draft Bill implementing the formula you proposed to HPSCI Chairman Boland in your 28 April letter; this draft places the negative covenants directly in the legislation where they would be public;
C	Alternative section for draft Bill at Tab B, which would place negative covenants in a classified annex;
D	Amendments which could be proposed to the Boland-Zablocki Bill (H.R. 2760) to improve it; and
E	A brief issues paper which could be used to highlight problems with the Boland-Zablocki Bill.

I have also attached at Tab F a draft compromise Bill drafted by the Department of State; this is now being revised, and we should have a clean copy later today.
